

Which lessons are in each unit of the modular IGCSE biology?

UNIT 1 (Your first exam)

Term 1

Lessons 1-8

Term 2

Lessons 2-11

Note. For lesson 7 you only need the first half (respiration). You won't be tested on diabetes and blood glucose control.

Term 3

Lessons 1, 3, 4, 6, 9

Term 4

No lessons need to be learned from term 4.

UNIT 2 (Your second exam)

All the remaining lessons.
These are...

Term 1

Lessons 9-14

Term 2

Lesson 1 and 7

Note. For lesson 7 you only need the second half on diabetes and blood glucose control.

Term 3

Lesson 2, 5, 7, 8 and 10-14

Term 4

The whole term can be tested.

It is recommended you complete the first three terms before attempting the first exam. Although you won't be tested on all the content, it can help with understanding.
